## Horsham Municipal Fire Management Planning Sub-committee

---

### 1. Introduction

Due to the level and nature of fire risk in the Horsham Rural City, the Municipal Emergency Management Planning Committee (MEMPC) has determined the need to establish a Municipal Fire Management Sub-committee (MFMP). The Horsham MFMP has been established as a sub-committee of the Horsham Rural City MEMPC in accordance with the *Emergency Management Act 2013* as amended by the *Emergency Management Legislation Act 2018* (EMLA Act).

### 2. Scope

The MFMP's scope, which includes the development of a Municipal Fire Management Plan (MFMP), is to provide a local level forum to build and sustain organizational partnerships, generate a common understanding and shared purpose with regard to fire management, and ensure that the plans of individual agencies are linked, complement each other and documented in the MFMP.

Under the MFMP arrangements, each agency will maintain their existing legislative responsibilities, but work to a common understanding of fire risks in communities, assets and other values most at risk, and of the strategies needed to avoid and mitigate them at a municipal level.

### 3. Governance

The MFMP is a sub-committee of the MEMPC. Under the leadership and guidance of relevant fire services, the MFMP is delegated to prepare and maintain the MFMP, and to make recommendations to the MEMPC.

As a sub-plan of the MEMPC, the MFMP will include:

- Documented analysis and evaluation of identified fire risks and treatments for the Horsham municipal district
- Implementation arrangements, timelines and accountabilities
- Prevention, preparedness, response and recovery provisions.

### 4. Functions

The MFMP will:

- Plan for fire management in a manner that co-ordinates fire management activities across agencies
- Seek information from, provide information to, and engage with the community on matters related to fire management planning
- Draft a MFMP for recommendation to the MEMPC
- Monitor, review and report on the delivery of the MFMP
- Advocate to the Regional and State Fire Management Planning Committees for municipal fire management needs
- Work with the MEMPC to align planning activities
- Share knowledge and create an environment of continuous improvement.
