Appendix

Horsham Rural City Council Budget 2026-2027 (**Appendix 6.1A**)

Purpose

To present the Horsham Rural City Council Budget 2026-2027 for adoption.

Summary

- The Budget 2026-2027 is prepared in accordance with the requirements of the *Local Government Act 2020*.
- The Budget 2026-2027 has been prepared through a process of consultation and discussion with Councillors and Council Officers.
- The Capital Works Priorities for 2026-2027 were provided for a period of community feedback between 25 March and 16 April 2026.
- The Budget 2026-2027 aligns with objectives set out in the Council Plan 2025-2029.

Recommendation

That Council:

1. Adopt Horsham Rural City Council Budget 2026-2027 and the subsequent 3 financial years, as attached pursuant to Section 94 of the *Local Government Act 2020*.
2. Declare the following rates and charges for the 2026-2027 financial year:
 - Amount Intended to be raised:
An amount of \$36.146m (or such other amount as is lawfully raised as a consequence of this resolution) be declared as the amount which Council intends to raise by general rates and the annual service charge, which is calculated as follows:

General Rates	\$28.187m
Municipal Charge	\$ 2.316m
Waste Management Charge	\$ 5.293m
Interest on Rates	\$ 0.040m and
Revenue in lieu of rates	\$ 0.310m

- Rates Information:
 - General Rates - A general rate be declared in respect of the 2026-2027 rating year, being the period 1 July 2026 to 30 June 2027.
- 3. Declare that the general rate be raised by the application of differential rates for rateable land having the respective characteristics specified in 5.1.1(n) of the budget document.
- Each differential rate will be determined by multiplying the Capital Improved Value of each rateable land by the relevant rate in the dollar as indicated as follows:

Residential	\$0.0036540
Commercial	\$0.0036540
Industrial	\$0.0036540
Cultural and Recreation	\$0.0018270
Farm	\$0.0021160

- 4. Declare a municipal charge for 2026-2027 of \$200.00 for each rateable land (or part) in respect of which a municipal charge may be levied.
- 5. Declare annual service charges for the collection and disposal of refuse in respect of the 2026-2027 Financial Year and set out below:

Urban Bin Charge	\$558.00
Rural Bin Service	\$388.00
Additional General Waste Bin	\$157.00
Additional Recycling Bin	\$157.00
Additional Organics Bin	\$157.00
Additional Glass Bin	\$90.00
Commercial Bin Service (weekly general waste/fortnightly recycling)	\$539.00
Additional/Standalone Commercial General Waste Bin (weekly)	\$337.00
Additional/Standalone Commercial Recycling Bin	\$202.00
Additional Commercial Organics Bin	\$202.00
Additional Commercial Glass Bin	\$102.00

- 6. Setting of interest rate on unpaid rates and charges
The Council will charge interest for rates and charges which have not been paid by the due dates, as specified under Section 167 of the *Local Government Act 1989*.
- 7. Payment of rates and charges
Declare that a person can pay a rate or charge (other than a special rate or charge) by: Four (4) instalments which are due and payable on the dates fixed by the Minister by notice published in the Government Gazette (i.e. 30 September, 30 November, 28 February and 31 May); or paid in full on 15 February 2027.
- 8. Authorises the Chief Executive Officer to make minor administrative corrections only, being changes that are non-material in nature and do not change any adopted policy, service level, financial outcome, or disclosure required under the *Local Government Act 2020*.

REPORT

Background

This is the first budget to be prepared under the guidance and influence of the Council Plan 2025-2029. It is also the tenth year of budget preparation under the State Government's Fair Go Rates system with the Rate Cap set at 2.75 per cent by the Minister for Local Government on 23 December 2025. It is against that figure that the 2026-2027 budget has been framed.

Council has a range of both internal and external cost pressures to contend with, however still recognises the need to play an important role as the regional city for the western area of the state providing quality services to more than just our own residents. There continues to be growth and development within the community which puts pressure on service delivery costs such as the supply of parks and gardens, maintenance of roads and footpaths over time.

Discussion

The Budget 2026-2027 has been developed in accordance with the *2026-27 Local Government Model Budget* published each year to assist councils in preparing their budget in accordance with legislative and regulatory requirements. Each of the financial statements presented in the budget have been prepared in accordance with the *Local Government Act 2020* and the *Local Government (Planning and Reporting) Regulations 2020*.

Key Statistics

	2025-26 Budget	2025-26 Forecast	2026-27 Budget
Total Revenue	\$64.444m	\$68.240m	\$57.898m
Total Expenditure	\$61.833m	\$62.828m	\$64.580m
Surplus/(Deficit) for the year	\$5.611m	\$5.412m	(\$6.682m)
Underlying Operating Result – Surplus/(Deficit)	\$0.700m	\$0.169m	(\$10.668m)

(Note: Underlying operating result is an important measure of financial sustainability as it excludes one-off income which is to be used for capital, from being allocated to cover operating expenses)

Budget Influences

In preparing the Budget 2026-2027, several internal and external influences have been taken into consideration as they impact significantly on the services delivered by the Council in the budget period and resulting budget position. Further budgetary pressure is felt due to the current inflationary environment, particularly where cost increases of materials and services far exceed the Rate Cap.

Capital Works

The proposed capital works budget is \$24.119 million, made up of \$5.944 million of new projects, \$13.967 million in renewal \$2.858 million in upgrades and \$1.350 million of expansion works. The program will be funded by \$3.480 million of grant funding, a new loan of \$1.139 million – to be repaid over 10 years – to assist with funding the redevelopment of the Wesley Performing Arts Centre, \$330,000 of contributions and asset sales of \$549,000. The remaining \$18.622 million is from cash reserves with \$8.450 million of this amount specific cash reserves which have been built up over many years to fund projects.

Capex Summary

While the complete Capital Works program is provided in Section 5 of the document, some of the highlights from this year's capital works budget are:

- Commencement of the refurbishment of the Wesley Performing Arts Centre

Officers Reports

- Haven Tennis Courts Lighting Project
- Laharum Cameron Oval Lighting Project
- Wotonga Basin Pipeline Connection
- Kenny Road Transfer Station Upgrade

Rates and Charges

Council has revisited the Revenue and Rating Plan for the 2025-2029 period and determined no changes were required to the methodology for the calculation of differential rates.

Council has retained its additional 'Council-funded' rebate to pensioners at \$50 which is rebate over and above the state government rebate. The Municipal Charge has also been retained at \$200.

Centralised Annual Valuations

Since 2019, the Valuer-General Victoria (VGV) is the sole valuation authority to conduct annual valuations for rating purposes. The Budget 2026-2027 includes valuation data from the VGV with valuations as at 1 January 2026. All rating information contained within the budget, including rates in the dollar, is based on these updated valuations. Council has received a "Generally True and Correct" (GTC) assurance from the VGV, however, until the preliminary valuations are certified by the VGV they may be subject to change.

Movements in individual property valuations (CIV) will have an impact on individual rate notices and are difficult to communicate through the Budget 2026-2027 document. Individual property valuation movements will therefore not be advised until the 2026-2027 annual rates notice for each property are distributed.

Targeted Performance Indicators & Initiatives

Council is required by legislation to identify major initiatives, initiatives and service performance outcome indicators in the Budget and report against them in their Annual Report to support transparency and accountability.

Section 3 of the Budget 2026-2027 documents Council's current and projected forecast across several prescribed indicators and initiatives. The indicators are useful for analysing Council's financial position and the initiatives are specific non-recurrent projects being undertaken in line with community aspirations.

Options to Consider

The budget is a key document for the good governance and operations of Council noting it is the role of a Council to provide good governance in its municipal district for the benefit and wellbeing of the municipal community. To adhere to this good governance, Councils must prepare and adopt a budget for each financial year and the subsequent three financial years.

The Council Budget must be adopted by 30 June each year, or any other date fixed by the Minister as per the provisions of the *Local Government Act 2020*. The budget is therefore presented for adoption by Councillors to provide good governance in the HRCC municipality for the benefit and wellbeing of the HRCC community.

Sustainability Implications

Rate capping continues to place restrictions on Council's ability to raise its own source income and places an ever-increasing reliance on grants from other tiers of government, the availability of which can change over time. Council's share of the overall tax revenues of all tiers of government (approximately 3%) is also a factor as additional responsibilities and obligations are being given to Council without adequate

consideration of the taxation implications. These issues mean that Council must be mindful of its own financial sustainability and therefore take a more conservative approach to debt than the approach other levels of government and/or the private sector may take.

Community Engagement

The Capital Works Priorities for 2026-2027 were provided for a period of community feedback between 25 March and 16 April 2026. Feedback received from that process was provided to Councillors to consider if any amendment were required to that substantial part of the Budget.

Council sought community feedback on the preparation of Fees and charges for the 2026-2027 year (adopted by Council on 25 May 2026) to assist in informing budget revenue calculations which are then reflected in the document.

Innovation and Continuous Improvement

Council continues to review the format and content of the budget document to ensure alignment with the model documents provided by Local Government Victoria, ensure best practice models are presented and provide the community with a relevant and readable document.

Financial Implications

All matters under consideration impact the Council Budget 2026-2027.

Regional, State and National Plans and Policies

Fair Go Rates system.

Council Plans, Strategies and Policies

The Revenue and Rating Plan 2025-2029 is an integral part of the Integrated Strategic Planning and Reporting Framework. It helps provide direction on how Council will fund activities and initiatives set out in the Community Vision 2041 and the Council Plan 2025-2029.

Risk Implications

A Council, must in the performance of its role, give effect to the overarching governance principles including that the ongoing financial viability of the Council is to be ensured (s9(2)(g)). In giving effect to the overarching governance principles, a Council must consider several supporting principles— including the financial management principles (s9(3)(d) *Local Government Act 2020*).

Council must also ensure that the budget gives effect to the Council Plan and contains financial statements in the form and containing the information required by the regulation; a general description of the services and initiatives to be funded in the budget; major initiatives identified by the Council as priorities in the Council Plan to be undertaken during the financial year; services to be funded in the budget, including prescribed indicators and measures of service performance that are required to be reported against; the total amount Council intends to raise by rates and charges; a statement as to whether the rates will be raised by the application of a uniform rate or a differential rate; a description of any fixed component of the rates, if applicable; plus any other information prescribed by the regulations. (s94(2) *Local Government Act 2020*).

There is a legislative requirement, specifically s94(1) of the *Local Government Act 2020*, that the budget be adopted by 30 June each year. There is also requirement, s158 (1) of the *Local Government Act 1989*, that Council must declare rates and municipal charges by 30 June each year for the following year.

Conclusion

The Budget 2026-2027 has been developed in accordance with the 2026-27 Local Government Model Budget published each year to assist councils in preparing their budget in accordance with legislative and regulatory requirements. The budget is considered fiscally responsible whilst still providing a degree of important economic activity within the municipality. The Budget 2026-2027 is presented for adoption.

Mayor & CEO's Introduction

It is with pleasure that we introduce the 2026-27 Horsham Rural City Council Budget.

This is the first Budget delivered by the Council elected in late 2024 under the guidance and influence of the revised Community Vision for Horsham 2041 and subsequent Council Plan 2025-2029. These documents were informed through community engagement to inform and reaffirm the direction and aspirations of the Community.

This document outlines more than 75 services delivered under Council's four themes of:

- Liveability,
- Sustainability,
- Accessibility and
- Leadership.

Council has adopted a "Business as Usual" approach in developing the Budget, assuming a consistent level of service to the community. The capital works budget is developed to continue to deliver high class assets, and maintain existing assets to the highest level, with current funding priorities to support these services.

Council has also developed a suite of new and continuing initiatives, essentially short term projects with clearly defined outcomes, to be delivered in addition to core businesses and services.

Targets for both service and financial indicators have also been set to enable Council to report regularly to the community on the progression of service delivery and achievement of the Council Plan and Vision.

This year represents another year of budget preparation under the State Government's Fair Go Rates System which introduced rate capping in 2016. These rate caps limit the amount by which Council can increase its total revenue from general rates and municipal charges for the coming financial year. On 23 December 2025 the Minister for Local Government announced a new rate cap of 2.75 per cent for all Councils for the 2026-27 financial year.

Mindful of cost of living pressures, Council has retained the "Council funded" pensioner rebate amount of \$50. This rebate is the amount Council funds over and above the State Government rebate offered to pensioners.

Council has also maintained the Municipal Charge at \$200.

Council reviewed its Revenue and Rating Policy prior to the 2025-26 financial year, mindful of fluctuating property values and the impact this has on differential rating. This policy was revised in an attempt to smooth out the impact of this happening in the future, with Council setting the percentage of total rate revenue to be contributed by the farming properties. This change will see the total revenue contributed by the farming community remain more stable in coming years.

The costs associated with Council's waste collection services have continued to grow. Contributing factors include the State Government's Environmental Protection Agency (EPA) levy and the implementation of the 4 Bin Policy to comply with the State Government's bin collection policy. Council continues to look for more efficient methods of waste collection and the promotion of waste reduction through education and other programs. However, waste collection fees have increased in order to move to recover the associated costs. (Service rates and charges for the collection of kerbside waste and recycling from properties are not subject to the rate cap). Council has accordingly increased rates in line with the 2.75 per cent rate cap for the financial year.

Council also continues to collect the Emergency Services Volunteers Fund Levy (formerly the Fire Services Property Levy) on behalf of the State Government on annual rate notices. Links to further information on this matter are available on Council's website.

The proposed capital works budget is \$24.119 million, comprising \$5.944 million of new projects, \$13.967 million in renewal, \$2.858 million in upgrades and \$1.350 million of expansion works.

The program will be partially funded by \$3.480 million of grant funding, a new loan of \$1.139 million – to be repaid over 10 years – to assist with funding the redevelopment of the Wesley Performing Arts Centre, \$330,000 of contributions and asset sales of \$549,000. The remaining \$18.622 million is from cash reserves with \$8.450 million of this amount from specific cash reserves which have been built up over many years to fund related projects. The purpose of Reserve Accounting is to gradually set aside funds over multiple years to ensure funding is available to commence projects when required.

While the complete Capital Works program is provided in Section 5 of the budget document, some of the highlights from this year's capital works budget are:

- Commencement of the refurbishment of the Wesley Performing Arts Centre
- Haven Tennis Courts Lighting Project
- Laharum Cameron Oval Lighting Project
- Wotonga Basin Pipeline Connection
- Kenny Road Transfer Station Upgrade

Council also continues to invest in the maintenance and renewal of key infrastructure for improved access across the council with projects such as:

- New footpaths for areas without existing access, as well as renewals of existing footpaths
- Continuation of bike track extensions
- Upgrades for playgrounds and dog parks
- Street lighting additions
- Essential waste management improvements, and
- Over \$7m in bridge, road and street works.

Council has taken a balanced approach to prepare the budget, taking into account the levels of service the community expects, investment in assets (both new and renewal), and ensuring it is financially sustainable. Whilst Council has worked to ensure that it has cash balances to sustain consistent levels of services and capital works over the longer term, and only generate revenue from the community in line with modest increases, the cash position may look excessive at the end of June 2025-26. This is predominantly due to the State Government paying \$7 million of operational grants relating to the 2026-27 financial year prior to the end of the current 2025-26 financial year. This also means that the 2026-27 financial year is distorted with substantially less cash being received.

The later years of the financial statements show a return to normal levels of revenues and expenses.

However, even in these later years, Council has adopted a conservative approach to cash management, ensuring that it holds enough cash to support the specific reserves (future capital works commitments) as well as working cash for at least the first three months of the year before rate revenue starts to flow in. This ensures Council can meet all financial obligations when they fall due, avoiding the need for use of short-term debt facilities and allowing capital works programs to continue all year round.

Council has reviewed all components of the budget over recent months, adjusting and refining to align with the aspirations outlined in the Community Vision 2041 and Council Plan 2025-29, including developing clear indicators and measures of success to enable reporting of progress to the community on its achievements. Council therefore endorses the 2026-27 Budget as financially responsible, fair & equitable, and we are pleased to provide this budget to our community.

Executive summary

Horsham Rural City is a regional city in the Wimmera Southern Mallee region of Western Victoria. Horsham is approximately 300 kilometres north-west of Melbourne and covers an area of 4,267 square kilometres. The Wimmera Southern Mallee region encompasses 20 percent of the area of Victoria but only 1 percent of the population. Horsham Rural City Council has an estimated residential population of approx. 20,000 with three quarters of residents living within the urban area of Horsham.

The work of the Community Panel to develop the first Horsham 2041 Community Vision, revised as part of the development of a Council Plan 2025-2029, Asset Plan 2025-2035 and Financial Plan 2025-2035, has guided the development of this budget. These documents were reviewed during 2025 (following the general election of councillors in late 2024) to guide future budgets and planning priorities.

The Ministerial Rate Cap of 2.75% means Council must continue to find ways to deliver its services more efficiently and to consider what services the community still needs Council to deliver and at what level that service should be delivered.

This document has been prepared in accordance with Ministerial pronouncements, however every effort is made to explain these requirements in everyday language.

Section 1 of the document outlines the legislative framework that Horsham Rural City and other local governments operate in. It describes the engagement processes undertaken to understand what community priorities for service delivery.

Section 2 provides information about the services Council provides to the community. These services are grouped together under the Council Plan themes developed in partnership with the community. The revenues and expenses included in this section are of an operational nature. They are revenues such as user and statutory fees and charges and operating grants. The expenditure includes the workforce, utilities, materials and services used to deliver and maintain the many services Council provides. Depreciation is also included to demonstrate the cost of delivery.

This information is supported by specific initiatives to help achieve the Horsham 2041 Vision. Initiatives are one-off or short-term projects that are in addition to Council's generally accepted levels of service.

It should be noted that capital works (expenditure to replace/renew assets) is not included here. At the end of Section 2, a table is provided which reconciles this "service delivery" view of Council's finances to the "financial view" or the Comprehensive Income Statement.

Section 3 details financial and performance indicators which provide information about how service delivery is measured. Some indicators are set by the Local Government Planning and Reporting Framework, whilst others are set by Council. These indicators are presented with targets for 2026-27 which will form the basis of quarterly reporting to the community on progress of achievement.

Section 4 details the Financial Statements as required by the *Local Government Act 2020* and the various Australian Accounting Standards.

Section 5 provides a more detailed breakdown and further explanations of these Statements.

Sections 5.5 and 5.6 set out Council's capital works program and outline the works required to keep Council and Community assets in optimum working condition. Council continues to invest heavily in these assets, reviewing their usage and condition. Works here include building renovations or upgrades, sporting facilities developments, all types of road reseals, reconstruction and resheeting, and plant replacement to name but a few. (Day to day maintenance of assets is not included here – refer Section 2). Making decisions about the spend on assets is very difficult as the desirable levels of renewal or replacement are not always financially achievable (i.e. the amount budgeted falls short of the amount Council would like to spend on assets). This means that some assets will not be able to be maintained to the level the Community would like. Council actively seeks grant opportunities to assist with these costs which firstly, enables more assets to be developed or renewed and secondly, eases some of the financial burden from the community.

Major capital projects

Council has prepared a detailed capital works program for the 4 years commencing 2026-27. This budget has allocated projects in specific years for presentation, however maintains a flexible approach to delivering the broader program.

External funding is key to being able to deliver such an ambitious program therefore, if funding is not forthcoming, projects may be deferred until suitable funding is obtained. Likewise, if funding becomes available for future year projects, Council will use its working capital to bring forward delivery of the respective project.

(Note: Underlying operating result is an important measure of financial sustainability as it excludes one-off income which is to be used for capital, from being allocated to cover operating expenses)

Budget Influences

External Influences

The following external influences have been taken into consideration in the preparation of the 2026-27 Budget as they are likely to impact on the services delivered by Council:

- **Financial Assistance Grants (FAGS):** These grants provide in excess of \$8.5million to assist with the general operations of Council. During May 2026, Council was notified that the Commonwealth intended to prepay 80% of these funds for the 2026-27 year in the 2025-26 year. This means that council's comprehensive income statement, cash flow statement and balance sheet will all appear with an additional \$7million, with the resulting statements for the following year showing \$7million less. Due to the proportion of this revenue within total revenue, this substantially alters a number of council performance measures and financial indicators.
- **Economic challenges** – In framing the budget, Council has considered closely the capacity of the community to pay versus the need to play a role in continuing to stimulate economic activity within the community.
- **Operating Costs:** In the 12 months to April 2026, the Consumer Price Index (CPI) rose 4.2%, down from 4.6% in the 12 months to March 2026. The CPI for Melbourne the twelve months to April 2026 was 3.9%. Council has taken these figures into consideration when estimating service costs input increases.
- **Rate Capping** – The rate cap for 2026-27 is 2.75%.
- **Fuel disruption** - The current global fuel crisis triggered by conflict in the Middle East is impacting fuel supplies and other costs, across the nation. These cost escalations in all aspects of direct fleet costs, coupled with potentially increased contractor and service provider/supplier payments, has already impacted on some service costs. Council has made every effort to estimate impacts and include these in both forecast and budget calculations. Council's conservative approach to ensuring it has cash reserves has ensured it has the ability to meet these additional costs without having to make immediate reductions in other areas (i.e. it has time to plan and prepare a measured approach to service costs and adjustments).

- **Emergency Services Volunteers Fund** - Whilst not a direct impact on the formulation of the Council budget, the Emergency Services Volunteers Fund – Formerly the Fire Services Property Levy – continues to be a topical matter. In December 2024 announcements were made to increase the amount of the levy collected by Councils along with other changes to the operations of the fund. Whilst this is a State Government Levy, local councils are appointed to collect the money via annual rate notices then forward the funds to the State. The collected funds are set aside in a separate account in trust for the State (i.e they don't appear in the income statement). The concern for Council remains that the community do not necessarily understand that Council is not setting or keeping these funds.

Internal Influences:

The following internal influences have been taken into consideration in the preparation of the 2026-27 Budget as they are likely to impact on the services delivered by Council:

- **Wage movement** - Council's Enterprise Agreement No. 11 (which governs pay conditions and increases for staff) was decided on 27 November 2025 and is operative from 4 December 2025 to 30 June 2028. This agreement has the purpose of stabilising and predicting wage and salary increases for the period of the agreement
- **Service Levels** - Council has adopted a "Business as Usual" view to develop the Budget, assuming a consistent level of service to the community and developing a capital works plan to continue to deliver high class assets and maintain existing assets to the highest level with current funding priorities to support these services.
- **Budget Development** - Council employs Zero Based Budgeting Principles when developing each budget, rather than an indexation of prior period amounts. This has resulted in some significant movements within individual service areas. Council has also undertaken a staffing structure realignment which has resulted in some variances in service budgets, reflecting realignment of existing staff resources.

1. Integrated Strategic Planning and Reporting Framework

This section describes how the Annual Budget links to the achievement of the Council Plan within Council's overall planning and budgeting framework. This framework guides the Council in identifying community needs and aspirations over the long term, medium term (Council Plan) and short term (Annual Budget) and the timing of the planning and budgeting cycle during the year.

1.1 Legislative Planning and Accountability Framework

Part 4 of the *Local Government Act 2020* addresses planning and financial management. The Act introduces strategic planning principles for Victorian Councils which include an integrated approach to planning, monitoring and performance reporting.

The requirements in the *Local Government Act 2020* are:

- A Community Vision (for at least the next 10 financial years);
- A Council Plan (for at least the next 4 financial years);
- A Financial Plan (for at least the next 10 financial years);
- An Asset Plan (for at least the next 10 financial years);
- A Revenue and Rating Plan (for at least the next 4 financial years);
- A Budget (for at least the next 4 financial years);
- A Workforce Plan (including projected staffing requirements for at least 4 years);

1.2 Horsham Planning and Budgeting Framework

Horsham Rural City Council (HRCC) has a Planning and Budgeting Framework that mirrors the legislated requirements.

The diagram below depicts the planning relationships for HRCC's planning processes:

1.3 Horsham 2041 Community Vision

This Vision is more than a Council document, it belongs to the whole community and describes our community's hopes, ideas and aspirations for the future of the Horsham Rural City Region.

It also guides Council's planning, asset investment, service delivery, and advocacy and invites residents, businesses, community groups, and governments at every level to contribute to a more sustainable, liveable, and accessible community for Horsham Rural City.

Council reviewed the Horsham 2041 Community Vision through a deliberative engagement process during 2025 after its initial development with a Community Panel for the first iteration. This engagement process considered whether the Vision remained relevant to the community and gathered information to formulate the 2025-29 Council Plan.

The Vision has been utilised to inform the Council Plan and to structure the themes within the Plan which then flow through to the development of the Annual Budget as shown in the Planning and Budgeting Framework.

1.4 Council's Planning & Delivery Themes (Strategic objectives)

The Horsham Rural City Council Plan 2025-2029 sets out the Council's strategic direction for the next four years. It defines our objectives and key strategic moves.

The Council Plan is a requirement under the *Local Government Act 2020* and seeks to advance the Horsham 2041 Community Vision, which describes the community's long-term aspirations for the municipality.

As required under the *Public Health and Wellbeing Act 2008*, the Council Plan also incorporates Horsham Rural City Council's Municipal Public Health and Wellbeing Plan.

This integrated approach strengthens Council's commitment to creating conditions for all residents to live healthy, safe and connected lives. To lead with purpose and care to shape a thriving and sustainable future we will:

- Lead with courage and integrity.
- Work with our community to shape our future.
- Nurture our people, places and services.

Council delivers services and initiatives for over 75 separate service categories. Each contributes to the achievement of one of the four Themes as set out in the Council Plan for the years 2025-29.

2. Council Services and Initiatives

This section provides a description of the services and initiatives to be funded in the Budget for the 2026-27 financial year and how these will contribute to achieving the strategic objectives outlined in the Council Plan.

It also describes several initiatives for key areas of Council's operations.

Council is required by legislation to identify major initiatives and service performance outcome indicators in the Budget and report against them in the Annual Report to support transparency and accountability.

Performance indicators are more fully described in Section 3.

3. Performance Indicators

Council has restructured this section of the budget to articulate performance indicators in two distinct sections:

- ✓ Local Government Planning and Reporting Framework (LGPRF) Indicators & Measures
- ✓ Horsham Rural City Council (HRCC) Specific Indicators & Measures.

3.1 Local Government Planning and Reporting Framework

This section shows performance indicators and measures as set out in the Local Government Planning and Reporting Framework. These indicators are defined under the framework and applied to all councils across Victoria. Reporting of these indicators annually is mandatory, however Council has decided that reporting these indicators to the community via the quarterly report provides significant information about Council operations. Council has also opted to set targets for all indicators in excess of the requirement of eight mandatory and eight elective indicators having targets set and provided for annual independent audit.

Further detail can be found in Schedule 4 of the *Local Government (Planning and Reporting) Regulations 2020*. Results against these indicators and targets will be reported in Council's Performance Statement included in the Annual Report.

Below is a depiction of the Performance Target Reporting Cycle as published in the Local Government Better Practice Guide.

The measures or indicators are presented under 7 domains as grouped under the LGPRF.

Where the measure is being recorded for the first time in 2026-27 the past performance has been estimated using best available knowledge.

3.5 Reporting on our Performance

At the end of each quarter, Council prepares a report which presents the information provided in the budget. The purpose of the report (apart from being legislated) is to demonstrate and inform the community of progress toward achievement of the Vision, Council Plan and Budget.

The Quarterly Report presents the financial information as adopted, forecast year end and actual financial balances at the end of the quarter.

Council initiatives are also presented with the same information. Initiatives are one off or short-term projects that are in addition to Council's generally accepted levels of service.

Council has adopted the Local Government Planning and Reporting Framework Indicators to report on key service data and these are audited annually by the Victorian Auditor General. These indicators are mandated by the State to report on annually, however Council feels that this information is important to measure performance against throughout the year.

This year Council has also provided an anticipated year end figure for the 2025/26 year as well as a "target" for the 2026/27 budget year for each of the indicators.

All three sources of information (financial, initiatives and indicators) also have narratives provided to explain the measures, progress and variances.

Further information regarding the Local Government Planning and Reporting Framework can be found on the following websites.

5. Notes to the financial statements

This section presents detailed information on material components of the financial statements.

5.1 Comprehensive Income Statement

5.1.1 Rates and charges

Rates and charges are required to be disclosed in Council's budget by both the Act and the Regulations.

As per the *Local Government Act 2020*, Council is required to have a Revenue and Rating Plan which is a four year plan for how Council will generate income to deliver the Council Plan, programs and services, and capital works commitments over a four-year period.

In developing the Budget, rates and charges were identified as an important source of revenue. Planning for future rate increases has therefore been an important component of the financial planning process. The Fair Go Rates System (FGRS) sets out the maximum amount Councils may increase rates in a year. For 2026-27 year the FGRS cap has been set at 2.75%. The cap applies to both general rates and municipal charges and is calculated on the basis of Council's average rates and charges.

The level of required rates and charges has been considered in this context, with reference to Council's other sources of income and the planned expenditure on services and works to be undertaken for the community. To achieve these objectives while maintaining service levels and a strong capital expenditure program, the average revenue generated by the general rate and municipal charge will increase by 2.75% in line with the rate cap.

5.1.1(a) Reconciliation of Rates

The reconciliation of the total rates and charges to the Comprehensive Income Statement is as follows:

	2025-26 Budget \$'000	2025-26 Forecast \$'000	2026-27 Budget \$'000	Change Budget to Forecast \$'000	Change Budget to Forecast %
General Rates*	27,199	27,342	28,187	845	3.09%
Municipal Charge*	2,305	2,312	2,316	4	0.17%
Service Rates/Charges	5,037	5,145	5,293	148	2.88%
Supplementary rates & Rates Adjustments					
Interest on Rates & Charges	40	59	40	(19)	(32.2%)
Revenue in lieu of Rates	306	308	310	2	0.65%
Total Rates and Charges	34,887	35,167	36,146	979	2.78%

*These items are subject to the rate cap established under the FGRS. The increase of the combined General Rates and Municipal Charges is 2.72% which is below the rate cap of 2.75% - Table at 5.1.1(k)

5.1.1(b) Rate in the dollar

The rate in the dollar to be levied as general rates under Section 158 of the Act for each type or class of land compared with the previous financial year

5.1.1(l) Fair Go Rates System Compliance

Horsham Rural City Council is fully compliant with the State Government's Fair Go Rates System. The table below details the budget assumptions consistent with the requirements of the Fair Go Rates System.

	2025-26 Budget \$	2026-27 Budget \$
Total Rates & Municipal Charge	29,503,591	29,695,917

5.1.1(m) Significant changes

There are no known significant changes which may affect the estimated amounts to be raised by rates and charges. However, the total amount to be raised by rates and charges may be affected by:

- The making of supplementary valuations
- The variation of returned levels of value (e.g. valuation appeals)
- Applications and/or granting of Municipal Charge exemptions
- Changes of use of land such that rateable land becomes non-rateable land and vice versa
- Changes of use of land such that residential land becomes business land and vice versa.

5.1.1(n) Differential rates

Differential Rates to be levied

The rate and amount of rates payable in relation to land in each category of differential are:

- A general rate of 0.36540% (0.0036540 cents in the dollar of CIV) for all rateable residential properties.
- A general rate of 0.36540% (0.0036540 cents in the dollar of CIV) for all rateable commercial properties.
- A general rate of 0.36540% (0.0036540 cents in the dollar of CIV) for all rateable industrial properties.
- A general rate of 0.21160% (0.0021160 cents in the dollar of CIV) for all rateable farm properties.
- A general rate of 0.18270% (0.0018270 cents in the dollar of CIV) for all rateable cultural and recreational properties.

Each differential rate will be determined by multiplying the Capital Improved Value of rateable land (categorised by the characteristics described below) by the relevant percentages indicated above.

Council believes each differential rate will contribute to the equitable and efficient carrying out of Council functions. Details of the objectives of each differential rate, the types of classes of land, which are subject to each differential rate and the uses of each differential rate are set out below. Further information is available in Council's Revenue and Rating Plan 2025-2029.

Residential Land

Any land on which a building designed or adapted for human occupation is erected; and which does not have the characteristics of:

- Farm,
- Commercial,
- Industrial or
- Cultural and Recreational Land.

Farm land is any land, which, under the *Valuation of Land Act 1960* is:

- Not less than 2 hectares in area
- That is used primarily for agricultural purposes
- That is used by a business that has significant and substantial commercial purpose or character

The Revenue & Rating Plan includes further requirements for these properties to be eligible for the farm differential that includes the following requirements:

- The Farm business must have an ABN
- The Farm business must be registered for GST (A review will be undertaken of these properties at least once every 4 years)
- Further information is contained in the Revenue & Rating Plan

The differential rate is provided in recognition of the changes to relative property values, the high value of land as an input to farm operations, and in recognition of some lesser access to services associated with the rural isolation of the majority of the farming sector.

Commercial Land

Commercial land is identified as any rateable land on which a building designed or adapted for occupation is erected which is used for commercial purposes.

Industrial Land

Industrial land is identified as any rateable land on which a building designed or adapted for occupation is erected which is used for industrial purposes.

Other Concessional Rates - Culture and Recreational Land

Culture and Recreational land is any outdoor land, which under the provisions of the *Cultural and Recreational Lands Act 1963* is:

- Occupied by a body which exists for cultural or recreational purposes and applies its profits in promoting the furthering of this purpose
- The lands must be owned by the body, by the Crown or by Council to be eligible
- Agricultural showgrounds are included

Council has a policy in relation to concessions for Cultural and Recreational Organisations and has established two concessions:

- 50% concession for those organisations that have significant revenue raising capacity, and
- 100% concession for those with limited revenue raising capacity.

The objective of this concessional rate is to recognise the large contribution that these community organisations and the volunteers make to the Municipality in the provision of sporting, cultural and recreational activities.

5.1.2 Statutory fees and fines

	2025/26 Budget \$'000	2025/26 Forecast \$'000	2026/27 Budget \$'000	Change Budget to Forecast \$	Change Budget to Forecast %

Statutory fees remain consistent with the major variance being local laws permits, licences and associated costs which were higher in 2025/26 than have been historically.

5.1.3 User fees

Other User Charges	308	284	222	(63)	78%
Total User Fees & Charges	6,804	6,942	7,337	395	106%

Council continues to review its fees and charges annually and has developed a comprehensive Fees and Charges Register separate to the budget process. Increases have been considered in line with Council's Revenue and Rating Plan, where Council articulates the basis upon which fees and charges are set. This process also allows significant reviews and adjustments to be provided to Council outside the annual budget process.

Total Grants Received	17,743	21,913	10,530	(11,383)	48%

Operating grants include monies from State and Commonwealth Government sources for the purposes of funding the delivery of the Council's services to residents.

The level of operating grants is projected to decrease by \$9.808m compared to the 2025-26 forecast. This is predominantly due to the Financial Assistance Grants paid by the Commonwealth Government, adjusting annual payment amounts by prepaying future years. Other recurrent operating grants continue to remain stable compared to the forecast for the year.

Non-recurrent grants have increased during the year due to emergency response and rectification works grants of over \$1m, with a further \$780k anticipated in the 2026-27 financial year.

Capital grants include monies from State and Commonwealth government sources which contribute to funding the capital works program. The amount of capital grants received each year can fluctuate dramatically, depending on the timing of specific projects and state and federal government programs and priorities.

Council has completed all capital works programmed under the Local Roads and Community Infrastructure Program with final payments of funds of \$1.637m in the 2025-26 year. This program has not been replaced in later years.

The Roads to Recovery program has been programmed to spend \$2.4m each year of the current five year program.

Council continues to actively advocate and therefore benefit from other infrastructure investments programs to align with community expectations of a growing regional city.

The Capital Works Program includes further analysis of the grants and contributions expected to be received during the 2026/27 financial year.

Operational monetary contributions include funds from West Wimmera Shire Council to operate library services on their behalf as well as contributions from Hindmarsh and Loddon Shire Councils as part of the Rural Council's Corporate Collaboration Project.

Capital contributions represent funds received from community groups to contribute toward specific projects such as the Wesley refurbishment and Art Gallery Trust for works of art.

Non-monetary contributions are developer constructed assets contributed by developers in accordance with planning permits issued for property development, including land, roads, footpaths, play spaces and drainage.

Total Other Income	1,946	2,965	1,905	(1,061)	64%

Council maintains significant cash balances to support operations and cash back reserve funds. This allows for substantial interest revenue. As Council draws down on investments and reserves to fund capital works and the expected interest rates, interest revenue has been budgeted conservatively.

Council derives income from the rental and leasing of Council-owned land. In accordance with Section 115 of the *Local Government Act 2020*, Council must include in the Budget any proposal to lease land where the lease is for one year or more and the rent or market value is \$100,000 or greater per annum, or where the lease term is 10 years or more. No such lease proposals are included in the 2026–27 Budget.

RRV has advised that existing contracts with councils will not be renewed beyond their current expiry. Council is preparing for the transition and working with the State Government to manage impacts on services, staff and the community.

The insurance reimbursements are “one off” situations in each year and are not recurrent revenue.

Council received a lump sum amount of \$500k from the State Government to assist with restoration of assets following fires in the Council area during the early part of January. Any funds not used specifically for this purpose will need to be returned to the State.

5.1.7 Employee costs

Total Employee Costs	24,619	24,004	26,844	2,840	112%

Employee costs were forecast down due to a number of positions which were vacant during the 2025/26 year.

The budget has been prepared on the basis of a realigned staffing structure and that all positions will be filled to ensure service delivery as planned.

5.1.8 Materials and services

As explained in note 5.1.7, a number of key positions were vacant during the 2025-26 year. Some of these were filled utilising temporary agency staff. With these positions now being progressively filled, the reliance on agency staff has been reduced.

Communications and Technology expenditure is increasing, however the capital requirements is generally decreasing over the longer term.

Waste Disposal & Management areas are expected to increase, both in the 2026-27 year and beyond. Council continues to look at options to decrease waste in general through various mechanisms, however compliance costs continue to escalate.

5.2 Balance Sheet

5.2.1 Assets

5.2.1(a) Current Assets

Cash and cash equivalents include cash and investments such as cash held in the bank, petty cash and the value of investments in deposits or other liquid investments.

Council maintains a strong cash position with discretionary reserves backed by cash along with a healthy working capital balance to facilitate the re-prioritisation of capital works should this be desirable to take advantage of external funding.

5.2.1 (b) Trade Receivables

Trade and other receivables are monies owed to Council by ratepayers and other debtors as at 30 June. It is not anticipated that these balances will vary significantly from year to year.

5.2.2 Liabilities

5.2.2 (a) Current Liabilities

Trade and other payables are those to whom Council owes money as at 30 June.

Council's operating liabilities (monthly creditors) are not anticipated to move significantly. Other liabilities associated with employee benefits are also predicted to remain steady.

5.2.3 Borrowings

The table below shows information on borrowings specifically required by the Regulations.

	Forecast 2025/26	Budget 2026/27	Projection 2027/28	2028/29	2029/30
Amount borrowed as at 30 June of the Prior Year	4,305	-	1,139	900	2,648
Amount proposed to be borrowed	-	1,139	-	2,398	1,750
Amount projected to be redeemed	(4,305)	-	(239)	(650)	(710)
Amount of borrowings as at 30 June	-	1,139	900	2,648	3,688

Council is proposing to borrow \$1.139m in 2026-27 to support the redevelopment of the Wesley Performing Arts Centre.

Financial modelling also proposes to borrow a further \$2.398m and \$1.750m respectively in the 2028-29 and 2029-30 financial years for capital works.

Council also maintains an internal loan reserve which utilises reserve cash holdings and removes the need to seek external funding for those specific projects – see Note 5.3.1 for further details.

5.2.4 Leases by Category

As a result of the introduction of AASB 16 Leases, right-of-use assets and lease liabilities have been recognised as outlined in the table below.

	2025/26 Budget \$'000	2025/26 Forecast \$'000	2026/27 Budget \$'000
<i>Right of Use Assets</i>			
Property	109	424	357
Total Right of Use Assets	109	424	357
<i>Lease Liabilities</i>			
<i>Current Lease Liabilities</i>			
Land & Buildings	56	81	81
Total Current Lease Liabilities	56	81	81
<i>Non Current Lease Liabilities</i>			
Land & Buildings	179	348	267
Total Non Current Lease Liabilities	179	348	267
Total Lease Liabilities	235	429	429

The above Right of Use Assets and Lease Liabilities for Land and Buildings relates to leases for land associated with landfill activities.

Where the interest rate applicable to a lease is not expressed in the lease agreement, Council applies the average incremental borrowing rate in the calculation of lease liabilities. The current incremental borrowing rate is 3%.

5.3 Statement of changes in Equity

5.3.1 Discretionary Reserves

Although not restricted by statutory purpose, Council has made decisions regarding the future use of discretionary Reserve funds as described below:

	2025/26 Estimated Closing Balance \$'000	2025/26 Forecast Closing Balance \$'000	2026/27 Estimated Closing Balance \$'000
CBD Development Reserve			
For the Development of Horsham CBD and surrounds	1,019	1,019	1,019
Plant Replacement Reserve			
Funds Council's purchases of replacement plant and equipment.	596	2,240	1,411
Waste Management Reserve			
The waste management reserve is created to provide funds to rehabilitate landfills at the end of their useful lives and other major capital or operating expenditure in the waste management area.	3,987	6,698	3,351
Major Capital Projects Reserve			
This reserve is for major strategic projects, including the Livestock Exchange	4,272	4,376	4,353
Open Spaces Reserve			
This reserve is mainly used for Developer Contributions	28	522	527
Small Projects Reserve			
This reserve is for sustainability projects, (such as solar and zero carbon) Information Technology and other initiatives.	1,632	1,685	1,696
Industrial Reserve			
The reserve is for industrial land and building development including their associated costs.	5,235	3,369	4,334
Loan Fund Reserves			
The reserve is set aside for interest only loans, so the initial loan amount can be paid back on the due date.	0	0	0
Internal Loan Borrowings Reserve			
This reserve funds borrowings, by using the cash and cash equivalent's balance available, instead of accessing external loans.	(1,347)	(1,347)	(1,257)
Total Reserve Funds	15,421	18,560	15,433

5.4 Statement of Cash Flows

Council continues to return a cash surplus from operations to fund capital investment and transfer to reserves for future capital works and meeting other commitments.

Council is gradually drawing down on its cash reserves to deliver significant investment, fitting with its role as a regional city.

It is anticipated that Council will end the 2026-27 year with a cash balance in excess of \$30m with \$15m of this set aside in discretionary reserves for future works.

	2025/26 Budget \$'000	2025/26 Forecast \$'000	2026/27 Budget \$'000
Cash Flows From Operations			
Income	63,111	68,526	57,785

Income	5,872	3,466	2,474
Expenses	(20,226)	(18,360)	(24,195)
Net Cash from Investing	(14,354)	(14,894)	(21,721)
Cash flows from Financing			
Income	-	-	1,139
Expenses	(4,476)	(4,569)	(93)
Net Cash from Financing	(4,476)	(4,569)	1,046
Total Cash Used Operations	(678)	3,700	(10,480)
Opening Cash	7,600	13,239	16,939
Closing Cash	6,922	16,939	6,459

In addition to operational cash, Council holds \$24m in investments.

5.5 Capital works program

This section presents a listing of the capital works projects that will be undertaken for the 2026-27 year, classified by expenditure type and funding source.

Whilst Council has prepared a detailed capital works program for the 4 years commencing 2026-27 and has allocated projects in specific years for presentation, Council maintains a flexible approach to delivering the broader program.

External funding is key to being able to deliver such an ambitious program, therefore if funding is not forthcoming, projects may be deferred until suitable funding is obtained. Likewise, if funding becomes available for future year projects, Council will use its working capital to bring forward delivery of the project.

* **Note:** Recurrent Grants and Council cash are summed together in the detailed schedules included on pages 62-64 i.e. \$2,407k + \$7,764k = \$10,171k.

The following abbreviations have been used in the capital works schedules in Section 5.6.

CR	Council Resolution	Council has passed a resolution with specific regard to this project
HVSPP	Heavy Vehicle Safety & Productivity Program	The program is now part of SLRIP
LSIF	Local Sports Infrastructure Fund	A State grant program provided for local government authorities and Alpine resorts to develop high-quality, accessible community sport and active recreation infrastructure.
RTR	Roads to Recovery	A Federal grants program provided to all local government authorities (councils) in Australia. The amount of funding is non-competitive and set by the federal government for a 5 year period.
SLRIP	Safer Local Roads & Infrastructure Program	A Federal grants program open to state, territory and local government authorities to assist with funding road infrastructure needs.

It should be noted that funding streams may not be confirmed for these projects. If funding is not successful, Council may apply to other funding streams or postpone projects until funding can be obtained.
