

MEMORANDUM OF UNDERSTANDING

between

HORSHAM RURAL CITY COUNCIL

and

WIM RESOURCE PTY LTD

for the **AVONBANK PROJECT**

1. PURPOSE OF AGREEMENT

This is a Memorandum of Understanding (MOU) between

WIM Resource Pty Ltd (WIM) and

Horsham Rural City Council (HRCC).

The MOU seeks to confirm the principles of a collaborative approach, recognising the specific roles and obligations of each of the parties.

The purpose of this agreement is for parties to develop processes to support working cooperatively and collaboratively, to maximise mutually beneficial community and economic outcomes, and ensure best environmental practice from the development and operation of the Avonbank Mineral Sands Project (Avonbank Project), within the Rural City of Horsham.

Both parties recognise that the MOU will be appended to the documentation WIM is required to provide to the Victorian Government's Environment Effects Statement (EES) process for assessment of the potential environmental, social, and economic impacts of the Avonbank Project.

2. AVONBANK PROJECT OVERVIEW

WIM is a privately owned Australian heavy mineral sands (HMS) resource development company, with one of the largest portfolios of HMS projects in the world. WIM's vision is to become a long-term producer of zircon, titanium, and rare earth minerals, these minerals are critical to everyday living. WIM's corporate and technical team have a proven tracked record of mine development having been involved in the development of several Australian HMS mines.

The Avonbank Project is WIM's flagship project and is located 15km north of the City of Horsham. WIM anticipates mining the mineral sands ore body over a period of thirty-six years. It will supply mineral concentrate containing zircon, ilmenite, and minor rare earth by products to offshore markets.

WIM has invested heavily in the project over the past nine years and recently completed a test pit and demonstration processing plant, which represented a major commitment and investment by WIM shareholders to move the project into full scale development.

In addition, there are ongoing environmental and socio-economic EES related studies as the project moves towards the construction stage. The project is currently at a Bankable Feasibility Study (BFS) or Definitive Feasibility Study (DFS) stage. This advanced stage of development will enable WIM to commence a funds raising exercise from 2022.

For the EES related studies, WIM expects to complete this process in 2022. Subject to final approvals and finance WIM plans to commence construction within the next three years.

The Avonbank Project is one of the most significant investments likely to occur in the Wimmera region in the past twenty years. Economic modelling for the company has found that there will be substantial net positive economic impacts for Horsham Rural City (RC), the Wimmera Southern Mallee (WSM) region, and the State of Victoria generally.

3. SHARED VISION AND ASPIRATIONS FOR THE AVONBANK PROJECT

The parties aim to maximise potential benefits for Horsham RC and WSM region by working towards WIM's corporate vision to 'Think Ahead, Move Ahead' and Council's vision, that states:

In 2041, Horsham region is a vibrant, liveable hub that thrives on strong economic growth and social connectedness. Empowering people to live, work and access opportunities for recreation and culture, now and into the future.

These Visions are underpinned by a commitment to:

- ◆ regular and open communication between the parties on all matters relating to the project
- ◆ joint advocacy processes to pursue commitments to the project and the region that will generate lasting benefits for both the project and the region
- ◆ consider community outcomes in all aspects of the planning and delivery of the project
- ◆ acknowledge that the best outcomes for the company and the community will flow from an efficient and financially robust project
- ◆ building on each party's core strength, skills, and attributes
- ◆ sharing information that will facilitate positive outcomes for the Avonbank Project
- ◆ acknowledging the cooperation will generate the most significant outcomes for both the region and the project.
- ◆ managing the mine in an environmentally responsible manner

The MoU does not preclude Council making a submission on the social, environment and economic impacts of the EES proposal.

Whilst the content of this MOU focuses on maximising local social and economic opportunities associated with the project, both parties also acknowledge the importance of ensuring that the impacts on the physical environment of the project are minimised as far as reasonably practical and managed to a high standard that reflects industry standard practices. This area is not addressed in detail within the MOU as other processes exist to consider and protect the physical environment.

4. STRATEGIC ASPIRATIONS

The Avonbank project aims to deliver the aspirations of Council's Investment Attraction Policy by having a strong commitment to creating a high-quality business environment that develops new jobs, fosters innovation in technology and diversifies the economic base.

Both WIM and the HRCC share the Victorian Government aspiration for successful development in regional Victoria.

5. AIMS AND OBJECTIVES OF THIS AGREEMENT

Both parties are committed to working in collaboration to identify and progress opportunities that will deliver social and economic development benefits for the region whilst, through endeavouring to maximise the

efficiency and robustness of the Avonbank Project's operations, not compromising or placing an unnecessary financial burden on WIM as a company with obligations to its shareholders.

The aims of this MOU are therefore to ensure that:

- ◆ the roles of each party are clearly understood and respected by both parties;
- ◆ processes are developed that will assist the parties to facilitate positive local economic and social outcomes associated with the project;
- ◆ processes and mechanisms are in place to support clear communication, collaboration and support, and these mechanisms are understood and supported by both parties; and
- ◆ both parties understand and commit to providing the capacity necessary to deliver the intent of this MOU.

6. DELIVERY OF THIS AGREEMENT

Two key areas of collaboration and joint focus were identified as necessary to fulfill the obligations and intent of this agreement. They are detailed below and are also subject of more detailed action intentions, outlined in Schedules One and Two.

The schedules appended to this document are intended to be regularly reviewed and updated to ensure ongoing currency and relevance to the overarching MOU. A diagram of the relationship between the schedules and this MOU is provided as Appendix One.

6.1. Key Areas of Focus

Two key areas have been identified as the core areas for collaboration between the two parties;

6.1.1. *Optimising Economic and Social Outcomes*

Importantly, HRCC is a conduit to the local community and provides a point of direct liaison on all community matters.

The role of WIM as the developer and operator of the proposed Avonbank Project is to meet its obligations to corporate regulators and its shareholders, through good governance and reporting requirements.

It is agreed WIM is a stimulator of regional benefits rather than a direct deliverer of benefits.

- ◆ neither party to this MOU has the authority to speak publicly on behalf of the other party without prior consent; and
- ◆ where one of party wishes to issue a public statement about the MOU, including the cooperation arrangements between the two parties via press release, newsletter or other communications means, any such statements will be approved by both parties, prior to release.

9. **RESOURCING**

Wherever possible both parties agree to use resources in a manner that will best benefit the region.

This resource sharing includes information and knowledge, databases, and other resources when available. The sharing of resources is governed by relevant legal obligations (Privacy, Confidentiality, Intellectual Property, etc.).

10. **CONFLICT RESOLUTION**

Both parties will work cooperatively in the spirit of goodwill, recognising that the position of each might at times differ. If one party believes the substance of the MOU is not being fulfilled it will initiate discussions with the other party to resolve the issue of concern.

If the parties are unable to reach a satisfactory resolution of a dispute, the matters may be referred to a specifically convened meeting if appropriate, mediated by an independent party acceptable to all.

11. **LIFE OF AGREEMENT AND REVIEW**

This agreement shall be continuous from the date of signing and shall be reviewed each year. The schedules to this agreement can be changed by agreement, between the parties.

12. **REPRESENTATIONS**

This MOU does not permit the use of copyright materials (including logos) and dissemination of confidential information or allow staff from either of the parties to represent each other without prior written agreement.

13. **NATURE OF THE MOU**

This MOU outlines the framework of the working relationship between the parties. It does not constitute a contract and is based upon goodwill and is bound in honour only.

This MOU does not constitute a partnership or joint venture and neither of the parties can commit the other parties financially or otherwise to third parties.

The MOU does not replace the Community Reference Group (CRG) established by WIM. The CRG will continue to function in its current format until the State Government establishes the Environmental Review Committee (ERC) in accordance with the Mining Work Plan for the Avonbank Project. Once the ERC has been established, the scope and purpose of the CRG will be reviewed by WIM in conjunction with the HRCC.
